110 Bass Pro Drive • Pearl, MS

Your Guide to Establishing Executive Presence

Your executive presence directly influences your ability to succeed in your career.

In many cases, your behavior becomes your professional identity and reputation. Your ability to handle yourself appropriately even outweighs your technical skills in certain scenarios.

We define executive presence as the code of behavior that makes business interactions professional, and it is exemplified by the way business people conduct themselves around others. During this highly interactive session, participants will enhance their executive presence as we discuss and even practice:

- How to introduce others with ease to avoid awkward encounters
- Two words: CELL PHONES (get ready for a lively discussion about our phones)
- How to feel confident when conducting business in a dining setting
- The latest views on handshaking etiquette in the midst of a pandemic, including how to properly decline a handshake
- Even how to tip others properly when traveling—because sometimes we wonder about how much ... and who
- Three “Executive Habits” to adopt in the next six months
